Company) CONTRACT

This matter comes before the Public Service Commission of South Carolina (the Commission) on the request of South Carolina Electric and Gas Company (SCE&G or the Company) for approval of a contract for electric service between SCE&G and Union Camp Corporation.

Union Camp Corporation owns and operates a cogeneration facility at Eastover, South Carolina and provides its own primary source of electric energy. SCE&G proposes to sell to the customer on an interruptible and unscheduled basis economy and standby power. Additionally, the Company proposes to sell maintenance power to the customer on a firm and scheduled basis. This contract dated February 25, 1994 would supersede the contract dated September 25, 1984 with subsequent amendments.

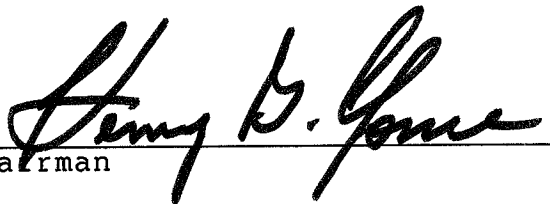

The Commission has considered the contract and examined its terms. The Commission believes that the contract is fair and reasonable to both parties and should therefore be approved as filed.

IT IS THEREFORE ORDERED THAT:

1. The February 25, 1994 contract between South Carolina Electric and Gas Company and Union Camp Corporation should be approved as filed.

2. This Order shall remain in full force and effect until further Order of the Commission.
